Call us with your requests.

Expanded Services

Tired of having to contact each of the manufacturers of your tumble process equipment to get a service tech? Source Gemco!

Gemco Parts and Service Division is now your single source for repair, maintenance and parts for all of your tumble process equipment.

We stock most common maintenance and repair parts. Additionally, Gemco maintains a full service machine shop dedicated to keeping your equipment up and running.

Whether you have a Gemco or any other manufacture's tumble blenders and dryers, ribbon mixers, orbiting screw mixers, in-line and discharge valves our service techs can keep that equipment running smoothly.

Routine or emergency... we respond fast with 24 hour 7 day a week availability.

Training

Gemco offers a wide range of training courses for your operators and maintenance personnel. With over 30 courses to choose from, these sessions are hands-on, at your facility, on your equipment for optimal results! See our website for courses available.

Contracted Maintenance Services

These are designed to assure timely care and service of your process equipment. Gemco provides a multi-point check up of your equipment providing a thorough diagnosis on its performance. This, coupled with a good in-house maintenance plan, assures consistent production requirements and extended life of your equipment. We offer several programs that are designed to fit your time frames and budgets!
